# DISPOSABLE LITTER TRAY

This invention relates to a disposable Bio-Degradable Litter tray for cats or dogs.

Litter trays are well known and widely used by homeowners for the toilet purposes of their Pet Cat or dog. Whilst the animal is indoors - Litter trays are, however, rather messy, and have to be emptied and washed out frequently.

According to the present invention, the tray is manufactured from Bio-Degradable materials and can be disposed of when finished with. This does away with the emptying and washing of the ordinary litter tray which is available on the market at this time.

The Bio-Degradable Litter tray contains a permissible amount of Litter . The Disposable tray has a sealed top, which is removable prior to use.

A specific embodiment of the invention will now be described by way of example with reference to the accompanying drawing in which figure 1 shows the Disposable Bio-Degradable Litter Tray with removable sealed top.

Figure 2 shows the Bio-Degradable Litter Tray with a permissible amount of Litter, sufficient for one tray, with a lid moulded with a scalloped pressed-down edge.

CLAIMS

1. A Disposable, Bio-Degradable Litter tray, for Cats and Dogs.
2. The Disposable, Bio-Degradable Litter Tray which contains a permissible amount of Cat-Dog Litter.
3. The Disposable, Bio-Degradable Litter Tray has a sealed top over the tray, which is removed to enable the Cat or Dog to use Litter Tray.
